MEMORANDUM FOR RECORD

SUBJECT: Letter of Input for Mr. Michael G [REDACTED]

1. Michael G [REDACTED] is a superior performer as my primary technician and overall manager for JWICS, HOCNET and related systems used by my ten units located throughout Afghanistan. Mike is a truly dedicated and selfless professional, willing to sacrifice his time and effort to ensure that our mission is fully supported. He has constantly sought to upgrade our communications systems and our ability to conduct our mission in direct support of Operation ENDURING FREEDOM and he unselfishly delivers. He has expertly assisted in the acquisition of the CENTRIX network providing an additional forum for inter-theater collaboration directly resulting in an increase in operational capability and improved Force Protection for my personnel.

2. Mike's unparalleled technical expertise and his personal commitment for my Team's mission success are invaluable traits. Mike's abilities to prioritize, work without supervision, and deliver needed solutions on-time if not ahead of schedule comprise the backbone of my organization. Mike G [REDACTED] is a positive and valuable asset for any company and U.S. Government mission.

D [REDACTED] D [REDACTED]
CAPT, USN
Chief, DSLA
